FROM:

Chairman, Information Handling Committee

SUBJECT:

CIRS Security Plan

Attached is the revised "Preliminary CIRS Security Plan." NSA has reviewed this document and expresses continued concern about some of its provisions. I intend to hold a "where do we go from here" discussion at our steering group meeting on 24 August.

25X1 MEMORANDUM FOR: [REDACTED]
NSA IHC Member

25X1 FROM: [REDACTED]
Chairman

SUBJECT: Revisions to Preliminary CIRS Security Plan

1. Based upon our discussion concerning problems with the previous versions of the Preliminary CIRS Security Plan which was circulated to the IHC members for comment in January, we have spent considerable time and effort in an attempt to revise the draft to address these problems.

2. We are transmitting to you herewith two versions of the latest revision. The first is a line-in, line-out version with the old language lined out and new or amended language underlined. As you will see, there have been numerous changes. For clarity's sake we are also enclosing a clean version of the new draft.

3. We will appreciate it very much if you and your staff can review this draft and provide us your comments together with any suggested revisions in writing. We would like to try to come to an agreement with you on the draft before resubmitting it to the other parties concerned.

4. If, in the course of your review, you or members of your staff think it would be desirable to hold additional discussions for purposes of clarification of our intent prior to submitting your written comments, please let us know and we will be happy to do so. Thank you very much for your cooperation in this matter which we consider to be essential to the further prosecution and development of the CIRS Plan. We would like to reach closure with you on this prior to presenting our promised update briefing on CIRS to [REDACTED] and John McMahon. A response by 1 June 1984 would be appreciated.
